SENIOR JUDGE: a Senior Judge is an individual who is entitled to officiate alone at any show. A Senior Judge may be accompanied by a Learner Judge, with not more than one Learner Judge in the ring at any one time. A Senior Judge may also carry an International Judge accreditation. There is no limit to the number of times a Learner Judge may participate. A Learner Judge has no authority but may consult with the Senior Judge during classes. The Senior Judge concerned must give a written report regarding the Learner Judge's ability to the Society. It is urged upon all Senior Judges as an important and obligatory duty to give the opportunity to Learner Judges to accompany Senior Judges in the show ring. SECTION A – REQUIREMENT OF A JUDGE

REGULATIONS GOVERNING JUDGING AND SHOWING

1. A Judge shall not be an exhibitor or manager at any show at which he is officiating.
2. A Judge shall not adjudicate in any show in which a member of his family, his employee or any of his or their horses are competing, unless the relationship is terminated three months prior to the show.
3. No horse may be shown before a Judge that has been sold by the said Judge or his employee within a period of three (3) months prior to the show, unless the sale or purchase has been made at a public auction.
4. No one may show a horse before a Judge from whom he has leased the said horse.
5. A judge may not officiate more than once within 160 kilometres during any three (3) month period.
6. A Judge shall not, during the period of a show at which he is judging, be the house guest of a person who is exhibiting at such show or whose family is exhibiting at such show.
7. A Judge should report his arrival at the town where the show is being held to the Show Secretary as soon as possible. Judges not showing up at the prescribed time without reasonable explanation will be liable for suspension.
8. Failure of a Judge to attend a show to which he is committed to perform his duties and to officiate in the classes to which he is assigned shall constitute cause for disciplinary action by the NZAHS, except in cases of extreme emergency. In the event that a show shall find it necessary to substitute a Judge for one who is officially designated, the restrictions of 1-7 above shall be non-effective.
9. A Judge must order from the ring any unruly horses whose actions threaten to endanger other exhibitors or their entries. Any horse which becomes free from its handler or rider in the judging arena, due to equipment failure or handler or rider error may not be disqualified provided that:
 - a) They do not leave the ring
 - b) They can be caught quickly without delaying the class in progress
 - c) Do not pose a danger to other competitors or the public

The final decision as to whether a horse is or is not disqualified shall rest with the Judge and shall be final.
10. A Judge shall have the authority to place a horse in whatever position in a class he thinks the merit of the horse justifies. His decision shall be final in all cases and is not a verdict by the Society.
11. No exhibitor shall approach a Judge with regard to a decision unless he first obtains permission from the ring steward who may arrange an appointment with the Judge at a proper time and place. The ring steward shall remain present during this meeting.
12. A Judge shall not confer with spectators without the presence of a ring steward.
13. A Judge shall not discuss with an exhibitor the purchase or sale or lease of any horse during a show at which he is officiating.
14. Good judging depends on a correct observance of the fine points and the selection of the best horses for the purpose described by the conditions of the class. A Judge serves three interests: exhibitors, spectators and his own conscience. Onlookers often pay to get in and they want to understand what happens.
15. The attention of Judges is directed to the difference in requirements between novice and open classes. Refer to the definitions for each as included in these rules.
16. A Judge is obligated to adjudicate each class in conformity with the rules and specifications of that class as they appear in the NZAHS Rules for Judging & Showing Arabian Horses. He is expected to possess a thorough knowledge of such rules.
17. A Judge shall not solicit judging appointments.
18. Whilst judging classes, the Judge will refrain from smoking, drinking alcohol or taking any substance that may impair his ability to judge effectively.
19. The use of mobile phones whilst judging is not permitted.

SECTION B

GENERAL

1. Horses must be entered under their full NZAHS registered name and number. Proof of registration may be required by show organisers.
2. The Judge shall make an individual examination and check the action of all horses brought before him in all halter classes. He should have the ability to examine each horse quickly and reasonably and have the ability to compare horses against each other and place them accordingly.
3. The normal procedure used in judging In Hand/Halter classes is as follows:
 - Horses enter at the walk or trot.
 - They circle the ring at the walk as directed by the Judge or Steward.
 - The horses will be lined up on one side with sufficient space between them for safety.
 - Each horse shall walk to the Judge and stand for inspection. The horse should then be asked to walk a few paces, then trot in a straight line away from the judge (a marker or reference point can be used). The handler should be asked to turn right with the trot maintained through the corner, in order to assess balance and proportion, topline and tail carriage, length of stride and engagement. The stride should be lengthened in a straight line across the Judge's vision.
 - Horses must be serviceably sound and in good condition.
4. **Requirements for Assessment:** An exhibit should:
 - Stand still for the Judge to inspect it.
 - Be able to perform the workout as directed. The Judge may allow a second workout if the horse suffers outside interference such as a loose horse galloping through the ring.
 - Not show any evidence of cruelty or distress from whip marks, spur marks, bleeding or drug abuse.
5. Transmissible weaknesses and/or unsoundness shall be counted strongly against.
6. **Artificial Markings:** Any change of colour or markings other than mane, tail or hoof is prohibited. These include artificial (painted) stars on foreheads, where no white hair exists.
7. Removal of tactile hairs and trimming of ears and mane is optional, but eyelashes must not be removed. Horses which are shown with ear and tactile hairs unclipped and with a full mane shall be judged on their merits and are not to be penalised.
8. Where entries are small, it is acceptable to combine Derivative classes. This is usually done on the basis of height or age. This decision is made by the applicable show committee.

SECTION C

1. A protest may be made to the Show Secretary by an exhibitor for any violation of these rules. It must be:

The protest-maker must be prepared to substantiate the protest by personal testimony at a hearing or by sworn statements, witnesses or other evidence.
3. NON-PROTESTABLE DECISIONS:
 - (a) The soundness of a horse, when determined by an official veterinarian of the show is not protestable.
 - (b) A Judge's decision, representing his individual preference, is not protestable unless it is alleged to be in violation of the rules.

SECTION D

RING STEWARDS

The Ring Steward should always present themselves in a neat well-groomed fashion, with their clothes appearing fresh and tidy.

3. The Ring Steward will notify the Judge when all horses are present for each class and call their attention to those which are absent so that the class card can be marked. The Ring Steward will ensure that the Judge knows how many horses should be placed (regardless of ribbons being awarded) according to numbers in the class so that breed points may be recorded.
4. The Ring Steward has the responsibility of checking entries for eligibility and riders and horses for proper attire, equipment and appointments. In classes so designated, they must see no person rides more than one horse.
5. The Ring Steward should act as mediator between Judge and Exhibitor, and/or Spectators.
6. The Ring Steward must have in mind that they have been selected to help the Judge, not advise them. They shall carefully refrain from discussing or seeming to discuss the horses and/or exhibitors with the Judge. Stewards shall not take part or be seen to take part in any of the judging. When they are not actively engaged in any of their duties, they shall place themselves in such a position as not to interfere with the judging and the view of the spectators. They must not allow the exhibitors to crowd up the ring or arena and should, at all times, endeavour to keep the possibilities of an accident to a minimum. The Judge may request the Steward to move and place horses as he advises. When the ring or arena is small and the class entries are large, he should survey the situation and take every precaution to keep the horses moving until the Judge is ready for them to be judged. At the Judge's request, they have the authority to ask an exhibitor to remove their horse for the safety of other horses or spectators. It is necessary that a competent Ring Steward be used; one who can control the conduct of the horses and exhibitors in the ring or arena, who can keep the classes moving smoothly and who is well versed in the Rules of the Society. The Ring Steward also has the authority to remove unsportsmanlike exhibitors from the ring at the Judge's request.
7. After ribbons have been given out the Steward should have the placegetters circle the ring or arena for the benefit of the spectators.
8. Horses owned or trained by immediate members of their family or by the Ring Steward cannot be shown in an event where the Ring Steward is officiating. If due to labour shortages in small shows, it is found to be necessary for exhibitors to assist, they should not do so until they have finished exhibiting. At National Shows, no Secretary on the day should be exhibiting.

SECTION I

GAITS

1. **STEPS, STRIDES, PACES**

There are four steps to a stride at the pace of the walk (4-time)
There are two steps to a stride at the pace of the trot (2-time)
There are three steps to a stride at the pace of the canter (3-time)
There are two steps to a stride at the pace of the rein back (2-time)
There are four steps to a stride at the pace of the gallop (4-time).

2. **HALT**

At the halt the horse should stand attentive, motionless and straight, with the weight evenly distributed over all four legs and be ready to move off at the slightest indication of the rider. The neck should be raised, the poll high, the head a little in front of the vertical, the mouth light and maintaining a light contact with the rider's hand. The transition from any pace to the halt should be made progressively in a smooth and precise movement.

3. **ORDINARY WALK (Approximately 100m per minute)**

A free, regular and unconstrained walk of moderate extension. The horse should walk energetically but calmly with even and determined steps, distinctly marking four equal spaced beats. The rider should keep a light and steady contact with the mouth.

4. **COLLECTED WALK (Approximately 80m per minute)**

The horse moves resolutely forward, with his neck raised and arched. The head approaches the vertical position, the light contact with the mouth being maintained. The hind legs are engaged with good hock action. The pace should remain marching and vigorous, the legs being placed in regular sequence. Each step covers less ground and is higher than at the ordinary walk because all the joints bend more markedly. The hind feet touch the ground behind the footprint of the forefeet. In order not to become hurried or irregular, the collected walk is slightly shorter than the ordinary walk, although showing greater mobility.

5. **LENGTHENED WALK**

The horse should cover as much ground as possible, without haste and without losing the regularity of his steps. The hind feet touch the ground clearly beyond the footprints of the forefeet. The rider lets the horse stretch out his head and neck without however, losing contact, the head being carried in front of the vertical.

6. **FREE WALK**

The Free Walk is a pace of rest in which the reins being stretched to their utmost, the horse is allowed complete freedom of his head and neck.

7. **THE TROT**

The trot is a pace of two-time on alternate diagonals separated by a moment of suspension. The trot always with free, active and regular steps, should be moved into without hesitation. Must be mannerly, cadenced, balanced and free moving. The quality of the trot is judged by the general impression, the elasticity and regularity of the steps and impulsion, while maintaining the same cadence.

8. **ORDINARY TROT (Approximately 255m per minute)**

This is a pace between the lengthened trot and the collected trot. The horse goes forward freely and straight, engaging his hind legs with good hock action, on a taut but light rein, his position being balanced and unconstrained. The steps should be as even as possible. The hind feet touch the ground in the footprints of the forefeet. The degree of energy and impulsion displayed at the ordinary trot denotes clearly the degree of suppleness and balance of the horse.

9. COLLECTED TROT (Approximately 200m per minute)
The neck is raised, thus enabling the shoulders to move with greater ease, the hocks being well engaged and maintaining energetic impulsion, notwithstanding the slower movement. The horse's steps are shorter, but he is lighter and more mobile. The collected trot is executed "sitting" unless otherwise instructed.
10. LENGTHENED TROT (Approximately 275m per minute)
The horse covers as much ground as possible. He lengthens his stride, remaining on the bit with light contact. The neck is extended and, as a result of great impulsion from the quarters, the horse uses his shoulders, covering more ground at each step without his action becoming much higher. The ordinary trot and lengthened trot are executed "rising".
11. ORDINARY CANTER (Approximately 300m per minute)
This is a pace between the lengthened canter and the collected canter. The horse, perfectly straight from head to tail, moves freely, with a natural balance. The strides are long and even and the pace well cadenced. The quarters develop an increasing impulsion. Very active. The horse's mobility is increased without any loss of impulsion.
12. LENGTHENED CANTER (Approximately 410m per minute)
The horse extends his neck; the tip of the nose points more or less forwards, the horse lengthens his stride without losing any of his calmness and lightness.
